

Assignment #1

Assignment Submission:

Submit your assignment on Blackboard as a **SINGLE ZIP** file that has

1. **PDF document** for the requirements listed below.
2. The **Visio files** that have the diagrams for the requirements listed below; please make sure you give proper names to your Visio files.

Assignment Instructions:

1. Review the Requirements Specification Document for the **Blogging Platform Application**.
2. Analyze the requirements for the **Blogging Platform Application** to identify actors/users/personas and their perspective use-cases/user stories.
3. Create the artifacts listed under the Assignments Deliverables section.

Assignment Deliverables:

Submit your assignment as a single PDF document that has the following:

1. List of **actors**
2. List of **use cases**
3. UML **Use-Case** Diagram

4. The UML **Activity Diagrams** for **3** use-cases/user stories from the list of use-cases/user stories you identified as a result of your review and analysis of the Requirements Specification Document for the **Blogging Platform Application**. One activity diagram of a use-case for every persona/role listed below.
 - 1) Student
 - 2) Faculty
 - 3) Moderator
5. Document one of the use-cases that you have identified in the **fully dressed format**.
6. **Visio** diagrams for the Use-Case Diagram and Activity Diagrams.
7. Save the **screen-shots** for the Diagrams in the PDF report document that you are submitting
8. Create your homework using MS-Word and then generate a PDF file for it; you can download FREE PDF generator to your laptop from <http://cutepdf.com/>
